Information on paying suppliers or contractors before the renovation work starts.

Neighborhood Finance Corporation (NFC) prefers that your contractor purchase supplies and invoice for them once they have been delivered to your property. NFC never recommends paying a contractor before work starts, but we understand that sometimes you as the homeowner may choose to pay the supplier directly or fund a down payment out of pocket and be reimbursed.

If NFC pay the supplier directly you will need the following:

1. Borrowers Release and Request for Payment - filled out to pay the supplier (i.e. Menards, Home Depot); and
2. Supply List/Invoice from the Supplier.

Note - if the supplier is willing to pick up their check from the NFC office this is all you will need to complete. If the supplier wants you to deliver the check you will need to have them sign the Mechanic’s Lien Waiver on the bottom half of your request form. Please ask them to call Noemi Saenz at NFC if they have questions about this policy.

If you pay for materials, you will need the following for your reimbursement:

1. Borrowers Release and Request for Payment - filled out to yourself.
2. Receipt for the materials purchased from the supplier.
3. A copy of a bank or credit card statement showing the transaction. Please do not pay cash; NFC will not reimburse a cash transaction.

Note - you cannot request reimbursement until the items have been delivered to your property.

If you pay a down payment to your contractor, you will need the following for your reimbursement:

1. Borrowers Release and Request for Payment - filled out to yourself.
2. The Final Labor Invoice from your contractor that shows your payment and remaining total amount due.
3. A copy of a bank or credit card statement showing the down payment transaction. Please do not pay cash; NFC will not reimburse a cash transaction.

Note - you cannot request reimbursement until the project has been completed.
